*fdjuric@gmail.com | +387 66 819 113 | Sarajevo, BiH | www.linkedin.com/in/fdjuric/*

## Education

**Electrical Engineering, University of East Sarajevo**                                  East Sarajevo
*Bachelor of Science in Electrical Engineering Computer Science*                              *2022/23*

## Work Experience

**Synergy Sports Technology**                    *Phase II Logger*                    *Oct 2013 | Present*

## Skills

**Programming Languages** C, C#, Java, HTML, CSS, Javascript

**Database Skills** MySQL, Oracle Apex

**IDE** Visual Studio, Eclipse, PhpStorm, SAP Power Designer, MikroC for PIC, Proteus Professional

## Projects

**Traveling agency** Java Swing
Desktop application that helps traveling agencies in organizing vacations and other travel activities

**eMagacin** C#, XAML, MySQL
Universal Windows application for storage of electronic components.

**Faculty Site** HTML, CSS, Javascript
Basic website that is made to simulate the faculty website, with a login page and a student page where the student can see his grades that are read from a database.

**Linear Regression** Python
Simple python project which demonstrates the use of linear regression (in artificial intelligence) when working with a large number of datasets.

**Nine Men's Morris** Python                                                    *github.com/Djura94/MIca*
Simple strategy board game (player vs. computer) where the computer logic is made using the minimax algorithm.

**Labyrinth** Java                                              *https://github.com/Djura94/Lavirint*
Maze solver made in Java that shows the difference between single-threaded and multi-threaded solvers.

## Awards

**German Language Competitions**
Awards in school competitions (municipal, regional and state level) in German language
